Dear Patrons,

The Station Dinner Theatre Staff has gone to great extent to make sure our building has been thoroughly cleaned and disinfected. Your safety, as well as the safety of our staff and performers, is of utmost importance to us.

For public safety reasons, the following guidelines must be followed:

- Masks must be worn while in common areas of the building. This includes the lobby, bar, and en-route to the restrooms. Masks may be removed while sitting at your table, during the serving portions, or while eating. Masks **must** be worn during the performance.
- Temperatures will be scanned for all patrons upon entering the building. If a customer registers a temperature of 100.4 or more, they will not be admitted to the theatre. Your tickets will be honored for another performance.
- Table size will be limited to 6 people per table, unless all are from the same group/ household.
- Gloves will be provided to each table for those customers who want to use them.
- Hand sanitizers and anti-bacterial soap has been placed on the lobby and restrooms. Please use them to maintain your safety.
- All performers and staff of The Station Dinner Theatre have been vaccinated. They will be masked and gloved throughout the serving portions of the event. They will not be wearing mass while performing.

These guidelines will be loosened or tightened as the pandemic situation changes.

Thank you for your cooperation.
